Fellow Minnesotans,

As Police Officers working tirelessly to ensure law and order in a very liberal city such as Minneapolis, we write today to formally endorse the election of Jason Lewis for United State Senate.

Like many in our profession, we have endorsed persons on both sides of the aisle for decades. Unlike Tina Smith, Jason Lewis stands for law and order and wants to hold people accountable for burning our cities, rioting and looting. Tina Smith openly advocates for protests; under the rouse they are “peaceful” when in fact they turn riotous and citizens and business owners have no recourse to stop the violence.

Jason Lewis continues to express his support for law and order for the future of our great state and country. We cannot sit idle and watch the destruction to continue. We cannot watch our livelihoods be destroyed by Antifa and other extreme hate groups.

This election, there is a lot at stake, but the biggest risk is law and order and bringing our nation together instead of furthering the divide. Jason Lewis has been continuously expressing his support for law and order in our state and our country!

Today, the Police Officers Federation of Minneapolis pledges their support in the election of Jason Lewis for United States Senate.
